CNet's Remote Attendance Learning
Live and Interactive Classroom Learning Remotely

The CNet Remote Attendance learning experience is different from many others, it is live and fully interactive (video and audio) with both the Instructor and fellow attendees wherever they are in the world.

▶ CNet has delivered remote attendance programs for the past three years, it's proven and customers enjoy the experience
▶ Remote attendees connect to a Smart Room to join the live class
▶ CNet has 15 Smart Rooms and therefore the ability to deliver 15 different programs simultaneously in different time zones across the globe
▶ We are still limiting the class sizes per Smart Room to preserve the high levels of personal interaction and quality of teaching
▶ The Learners' experience is exactly the same as being in an actual classroom (most say better)
▶ Classes are live and Instructor-led
▶ Classes are fully interactive with the Instructor and fellow attendees
▶ Remote attendees can see and hear everyone in the room (and they can see and hear you)
▶ Classes include Instructor tuition, visual aids, video and audio
▶ Learners can undertake team activities via virtual break out rooms
▶ The ability to network with other learners during breaks and lunches
▶ Use any device, we include recommendations to optimise the experience
▶ Remote Attendance classes utilise a Learning Management System for class material and to upload assignments
▶ You can use any device however; we include recommendations to optimise the experience

Benefits
▶ Save travel cost and time
▶ Save accommodation costs
▶ Save subsistence costs
▶ Environmentally friendly, a more sustainable and greener approach to learning
▶ Time zone flexible
▶ Learn in the comfort of your chosen environment
▶ Working from home friendly

How Does it Work?
Smart Rooms are fitted with the latest high-definition, bi-directional audio/visual communication and collaboration tools so all learners and the Instructor can see and interact with each other in the usual way.

Remote attendees simply receive a link from CNet Training to download the necessary free software and log in details for the CNet Training Learning Management System. Then, along with the items listed below, remote attendees have everything they need to enjoy the entire learning experience.

Recommendations for Set Up
▶ A laptop/PC with unrestricted internet (suggested >4Mbps dedicated) and the latest browser and suitable applications for reading PDFs and standard Office documents
▶ A USB camera, microphone and separate speakers are recommended, or integrated camera, microphone and speakers
▶ Dual monitors are recommended as ideal to view an extended desktop and further enjoy the learning experience

" I have never seen a system like this where I can see and interact with everyone attending the class. It is really good. "

" The remote attendance learning experience was very efficient and convenient. I didn't lose any value by doing the program via remote attendance versus going into the classroom. "

" Easy and convenient, without the need of travel or accommodation therefore saving us a lot of money. "
